

SPECIFICATION AMENDMENTS

A. Amend the first paragraph of the section entitled “Detailed Description of the Preferred Embodiments of the Invention” (on p. 3) to read as follows:

FIG 1 summarizes the main components of the invention. The major components of this invention are one or two a video cameras 3, a motion tracker 4, a head-mounted display (HMD) 2, headphones 5, and a self-contained breathing apparatus (SCBA) mask 1 with a “catcher’s mask” style straps 6 to hold the SCBA onto the wearer’s head.

B. Amend the second full paragraph on page 4 to read as follows:

For a stereoscopic embodiment of the invention, two cameras 3 are required, Fig. 1. They should be spaced the same distance apart as the wearer’s eyes and possibly have an interpupillary distance (IPD) adjustment. Each camera 3 can be mounted similarly to the way a single camera mount is described above.
